

# PLUG & PLAY COMPUTERS

## Why Choose Plug & Play ?

### Complete Service & Support

You get award-winning service & support with every computer product you buy.

Local support in the Sutherland shire with 2 handy locations. We're just around the corner.

Always there when you need us, from PC home installations to replacing damaged parts, to software upgrades, we offer you the service you need, when you need it.

9 Years in the Sutherland Shire - we will be around to support you.

2 Years parts & labour warranty - our warranty covers both parts & labour. - don't be fooled by labour only warranties.

No long waiting periods to get your new computer.

Fast turn around for upgrades & repairs.

7 Day Money back guarantee.

### Phone Support

Most of the time, your computer problem can be solved on the phone. Phone support is available, so you always have a trained technician to troubleshoot with one on one.

### At-Home Service

Plug & Play systems come standard with return to base service but extending your warranty to onsite, means we come to you. This means that after a telephone troubleshooting session, a certified technician may come to your home to repair your system or install any necessary replacement parts -often the next business day.

Extendable warranty terms up to 3 years means you can enjoy the comfort of knowing your system will be serviced for up to three years.

### Not a one man band.

We have more than 10 experienced staff to help you, By phone or e-mail. We're experts at PC construction, network setup, internet connectivity, troubleshooting and technical support. Many online retailers have a staff of one, no fixed address or workshop, and can't provide full support services even if they know how - one person can only answer so many phone calls and e-mails a day! Plug & Play's staff are there when you need us.

Sure, we don't have 30,000+ items in our range, but do you think that the places that say they have this many items, actually have anyone on staff who knows about all of them??

100% Australian owned & operated.

Our goal is to be your best & friendliest computer supplier!

Peace of mind has never been easier.

# Core 2 Series

Value - For the not so power hungry, but size matters !
